### **Specification**

The specification is objected to because of the following informality. For figure 1, brief description of drawing is lacking.

In arrangement of the specification, applicant is suggested to use following section headings in upper case letters as provided in 37 CFR 1.77(b). If no text follows the section heading, the section heading should be omitted:

- (a) TITLE OF THE INVENTION.
- (b) CROSS-REFERENCE TO RELATED APPLICATIONS.
- (c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT.
- (d) THE NAMES OF THE PARTIES TO A JOINT RESEARCH AGREEMENT.
- (e) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A COMPACT DISC.
- (f) BACKGROUND OF THE INVENTION.
  - (1) Field of the Invention.
  - (2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.
- (g) BRIEF SUMMARY OF THE INVENTION.
- (h) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).
- (i) DETAILED DESCRIPTION OF THE INVENTION.
- (j) CLAIM OR CLAIMS (commencing on a separate sheet).
- (k) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).

### **Claim Rejections - 35 USC § 112**

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 1, applicant claims "an intermediate layer for an electroluminescent arrangement". Thereafter, applicant has listed physical features of electroluminescent device. Here, is applicant claiming intermediate layer or electroluminescent device? What exactly is electroluminescent "arrangement"? In line

Art Unit: 2889

3-4, it is not clear what exactly applicant is claiming by reciting at least one hole (a positive charge) “or” electron (a negative charge) transportation “and/or” injection layer of “basic” material. Also, what exactly is basic material? What exactly is preamble of the claim which identifies/defines other limitations in the body of the claim.

From reading the given specification and viewing the drawings, the examiner cannot ascertain as to what exactly the applicant is attempting to claim. Further, applicant is requested to explain and show/point-out these claimed features in the provided drawings. Foregoing claims are informal (see rejection of claims above under 35 USC 112, second paragraph) that no meaningful examination on the merits of the claims can be undertaken at this time. See MPEP 702.01. Once the claims are sufficiently defined, search and examination on the merits will be given to the claims.

Also, when correcting/drafting claims, applicant is suggested to consider applicant’s cited 35 USC 102 references.
